Bio

Micol Gelsi is an artist and researcher working across performing and multimedia arts. Through a hydrofeminist approach, she explores the political and affective relationships between physical and virtual spaces, addressing themes such as memory, liminality, and power.

She holds a degree in Architecture from the University of Ferrara (2017) and worked as a front-end developer at Bunker s.r.l. In 2022, she enrolled in the Multimedia Art and Design program at RUFA in Rome.

In 2025, she was awarded the 6Artista prize; during the residency, she developed *The Archive of the Untamed* as an evolving hyper-object — a porous, multi-layered system intertwining urban wildness, digital infrastructures, and collective imaginaries. The project unfolds through spatial installations, web-based architectures, and participatory gestures, and is currently on view at Fondazione Pastificio Cerere.

She is a member of ASAP, a Bologna-based collective focused on performative projects that intersect art and nightlife culture. Since 2023, she has also co-founded Blivet, a multimedia art collective investigating the intersections of art, matter, and technology. Blivet's work has been exhibited at the Museo Nazionale Romano, Romaeuropa Festival, AlbumArte, and Blooming Festival.

She lives in Rome with her dog Lilo, and works as a Web Design teacher at DAM Academy and as a freelance web developer.
